

## Expectations in Dynamic Macroeconomic Models

[www.macroexpectations.com](http://www.macroexpectations.com)

August 30th - September 1st, 2023 // TUtheSky, TU Wien

### Call for Papers

We invite paper submissions for the workshop on 'Expectations in Dynamic Macroeconomic Models,' to be held at TU Wien, Austria, this summer.

#### Keynote speakers

**Guido Ascari**

(University of Pavia / De Nederlandsche Bank)

**Luba Petersen**

(Simon Fraser University)

The workshop aims to bring together leading experts in the modeling of expectations in dynamic models with applications including, but not restricted to macroeconomics, financial economics, labor markets, IO, theory, etc. This is a 2023 edition of the workshop under the same title that has been organized since 2011. We encourage junior economists to submit their research, they will also be eligible for funding.

#### Paper submission

Submissions should include either a full paper or an extended abstract with the main results. Please email your submission to [macroexpectations@gmail.com](mailto:macroexpectations@gmail.com). **The deadline for submissions is May 21st, 2023.** We anticipate selecting approximately 13 papers for inclusion in the conference program. *If you are a PhD student, please also indicate if you would be interested in presenting your work in a poster session.* Limited funding will be available to defray hotel accommodation expenses. Authors chosen to present papers will be notified approximately by mid-June. A preliminary program will be announced by the end of June.

#### Scientific committee

**George Evans** (University of Oregon)

**Seppo Honkapohja** (Aalto University)

**Bruce McGough** (University of Oregon)

**Bruce Preston** (University of Melbourne)

#### Local organizers

**William A. Branch** (University of California, Irvine)

**Emanuel Gasteiger** (TU Wien)

**Alex Grimaud** (TU and WU Wien)

The organizers gratefully acknowledge financial support by the Anniversary Fund (Jubiläumsfonds) of the Austrian National Bank (OeNB) and the City of Vienna. This is edition is the internal workshop of the stand-alone research project 18611 ('Should central banks modify their inflation targeting framework when agents are boundedly rational?').
